### SUMMARY

Enthusiastic Front-End Developer with experience in building modern and responsive web applications using React.js, JavaScript, and Tailwind CSS. I am eager to join a dynamic team where I can apply my skills to develop efficient and scalable user interfaces.

### TECHNICAL SKILLS

- Programming Languages: HTML5, CSS3, JavaScript (ES6+)
- Libraries & Frameworks: React.js, React Hooks, React Router, Tailwind CSS, Material UI
- Tools & Platforms: Git, GitHub, Vite, NPM, VS Code, Figma, Netlify, Vercel
- Concepts: Responsive Web Design, RESTful APIs, State Management (useState, Context API), i18n, Component-Based Architecture

### CERTIFICATIONS

- Software Foundations Track-[[almdrasa.com](#)]-2025 : 10 courses [Certification](#)
- **The Front-End Development Track (HTML & CSS) - [[almdrasa.com](#)] - (2025) :**  
**7 courses** [Certification](#)
- **React: Basics to Advanced Track-[[almdrasa.com](#)]-2025 : 3 courses** [Certification](#)
- JavaScript Track - [[almdrasa.com](#)] - 2024 : 5 courses
- Git and GitHub - [[almdrasa.com](#)] - Course

### LANGUAGES

- Arabic : Native
- French : Intermediate
- English : Beginner

### HOBBIES

- Reading books and self-development
- Football and Handball
- Learning languages
- Programming and project development

### PROJECTS

Some projects that I'm proud of :

E-Commerce Platform | React.js, Firebase, Tailwind CSS, i18n

Aug 2025 - Oct 2025

- Built a fully responsive multi-language interface with seamless product browsing and real-time data updates powered by Firebase.
- Designed a scalable component architecture in React with clean state management and optimized performance.
- Developed a modern, visually refined UI using Tailwind CSS, achieving fast load times and a polished e-commerce look.

Newsfeed app | React.js, Material UI , API

Avr 2025 - Avr 2025

- Implemented a dynamic newsfeed interface using React.js with Material UI components to ensure a clean, modern, and responsive user experience.
- Integrated real-time API fetching to deliver up-to-date news content with efficient state management and smooth UI rendering.
- Designed a fully responsive layout optimized for different screen sizes, leveraging Material UI's grid system and reusable components.
- Enhanced user interaction through intuitive navigation, categorized news sections, and improved content readability using Material UI styling.

Around-the-world | React.js, Tailwind CSS, i18n

Jul 2025 - Jul 2025

- Developed a comprehensive world data explorer using React, providing detailed information about all countries including population, region, capital, and flags.
- Implemented Tailwind CSS to deliver a clean, responsive, and visually consistent interface across all screen sizes.
- Structured the application with modular React components for country cards, search filters, and detail pages, enhancing scalability and maintainability.
- Integrated full internationalization (i18n), enabling users to browse country information in multiple languages for a localized and accessible experience.
